## ANUJ AMBALAL

Anuj Ambalal, born 1976, holds a Master's degree in Investment & Finance from the Middlesex University, London. He used to work as an equity researcher before setting up a design studio in Ahmedabad - A Cube Inc.

Here, he looks at furniture design as an art form, concentrating on diverse shapes and textures to create individual sculptural entities. Ambalal has received no formal training in photography but considers it as a further progression from his design practice and sees it as another medium to explore his creativity.

He has held solos as well as participated in group exhibitions in India and abroad.
